

FOR MEDICINAL USE NO FUSEL OIL

Cough in the morning; tickling in the throat; difficult breathing; quickened pulse; shortness of breath; tightness in the chest; chilliness in the evening; feverishness; thick expectoration, every one of these is a symptom of consumption. It is almost impossible to cure it in the latest stage, but it can readily be checked if taken at the start. Physicians always recommend a pure stimulant, and for this purpose nothing has equalled Duffy's Pure Malt Whiskey. The celebrated physician, Henry A. Mott, Ph.D., F.R.S., says: "Duffy's Pure Malt Whiskey is free from fusel oil, adulterations or foreign impurities, and these qualities should recommend it to public favor."

WHEELING DAILY INTELLIGENCER.

General Base Ball Notes about the Tri-State League—Other Items.

Canton has \$450 of stock to be subscribed yet.

Zanesville has released Watson, one of its pitchers.

Lima has decided not to play Sunday games either at home or abroad.

Stagg, the Yale pitcher, conducts religious revivals on the Bowery every Sunday.

Toledo promises to turn out larger crowds than any other city in the League.

It is now stated that Sam Barkley will form one of Pittsburgh's outfield until Sunday rejoins the team.

Larry Welch, centerfielder of the Hastings, Neb., club of last year, is to be one of the fielders for Jackson.

Jackson's manager is George V. Burbridge, of Jacksonville, Fla. The Directors have not yet located the Jackson grounds.

The Mansfield News predicts that its club will defeat the Toledo team four times in the first five games. Mansfield always did have nerve.

Jack Glascock, of this city, the Indianapolis short-stop, is one of the League veterans. He has been playing with the Nationals continuously for nine years.

Light gray and maroon are the colors of the uniforms Canton will wear. The caps, stockings, belts and neckties are maroon. The Repository dubs them the "Maroons."

Fritz Grumbler, of Mansfield, is in a quandary from the effects of the cutting he received in a fight there a few months ago that he will be unable to play this season.

The Tri-State League's Schedule Committee will meet in Mansfield to-day. President Seelye and Manager Buckenberger left for there last evening to report to the directors.

Ed Webster, Jackson's president, refuses to be bulldozed by J. H. Roush, of Cleveland, who demands \$150 for his services in assisting in the organization of the Jackson team, and will resist suit. Webster offered Roush \$50.

Lima is said to have twenty-three men already signed, and yet she continues to book players as they come along. The latest one is W. R. Savage, of Gainesville, Fla. He was recommended by Cleveland, and is said to be a desperate player.

One week from this afternoon there will be fun on the Island Park. The Nippers and Smoked Italians will contend for their first victory of the season, and every one of them will have all the masquerade and charms on hand to help him. If the day is pleasant there will be an enormous crowd and the old familiar "Scat! now you old-de!" will arouse waves of howling enthusiasm.

The schedule committee will probably have to arrange for a uniform, and making their trips in order to accommodate the wishes of all the cities. The organizing of a ten-club schedule is no easy matter any way. To be done so as to save expense the clubs should only make two trips. Three trips will greatly increase expense, but it gives more publicity, and may increase the attendance at each game.

Marshall B. Brown has been signed by Toledo as one of its catchers. Last season he caught for a local team at Findlay. Lima wanted him and he had an offer from the base team of the West. He is a wonderful natural catcher, and a veritable stone wall behind the bat. He catches gracefully and well, simply because (like Bennett, of the Detroiters) he can't help it. He is a large man, weighing 160 pounds, and a terror to base runners. He is a good batter, and is strictly temperate.

The Columbus State Journal is opposed to having Wheeling, Toledo or Columbus play together on the holidays, and for this reason heup Sandusky's fight against Toledo playing here July 4, as was contemplated by Buckenberger's schedule. It says: "Toledo is a large city and has much territory to draw from on either Decoration Day or the Fourth, which every day shows up in the city. It is a wonder that the Journal is so opposed to those days is all wrong." The State Journal thinks that Mansfield or Lima should be here on that date and the other club should be put at Toledo.

The Collieries team has adopted what is pleased to them as a uniform. It is a light blue suit with a white shirt and a white tie. It is the utter lack of anything like uniformity. Each player is to be rigged out in a different colored suit. The State Journal says that the club's appearance will "be picturesque and really pitiful. When they are on the field, they will look like a bunch of ragged boys." The various burials and combinations will be as follows: Red, white, light blue and black; Smith, Pike and Munyan, catchers, will wear dark blue and black; Hamilton, first base, red and dark blue; Welch, second base, orange and black; Roush, white and navy blue; O'Brien, third base, white and navy blue; left field, red and blue; West, middle field, maroon and light brown; McVey, right field, light blue and dark blue. Manager Curry when playing will also have a neat uniform. The entire team will be ready for the contest in the best stockings and cord on the pants will be red.

ANOTHER WHEELING ACTOR.

Mr. M. H. McNabb to Join the "Cold Day" Company.

Mr. M. H. McNabb, of this city, leaves this afternoon for McKeesport, where he is to join the "Cold Day" Company this evening. The company, which has been at the Grand for the last three nights, leaves early this morning and appears at McKeesport to-night. On Monday evening at Bradlocks, Pa., Mr. McNabb makes his first appearance on the professional stage as the "Middling man" in "Cold Day."

He is assured of a long engagement, with a chance to rise in the profession, and his numerous friends here, who know him as a talented amateur, will be confident of his winning fame on the stage. His home will be with interest at his home, and if he does not in time knock out most of the comedians, those who know him will be surprised. This makes another on the long list of Wheeling talent on the boards, and is a promising addition.

Exams, appointed for the purpose of arranging for the holding of the meeting and looking after the details. The entire membership of the several clubs will be present and will participate in the proceedings. The Republicans of old Marshall are very wide awake this year and propose to make the county more solidly Republican than ever before.

Gus Hill's Company.

Gus Hill's World of Novelties opens at the Grand this evening an engagement which is to run through the rest of the week. The New York Evening Telegram says of this company: "There is no other company in New York of a variety company of such high order of merit, so fun provoking, with such an absence of vulgarity, as Gus Hill's."

World of Novelties.

There was nothing to offend the most fastidious, and all the artists were first-class in their line. To specify the excellent things would be to repeat the program. There was no bad feature, not an act that was not encouraged to the echo. The audience laughed themselves almost to death. There are so many good things worthy of note that it seems unfair to discriminate.

BIG MONEY FOR GLUCOSE.

The Way "Real Maple" Sugar is Most Frequently Made.

The season has arrived for jokes in the newspapers about "last year's maple sugar." So far the show of maple sugar has not been great, but the weather of the latter part of last week ought to result in a sort of a boom in the market as soon as the country roads are passable once more. The fact is that "last year's maple sugar" is about as good as this year's, and a good deal better than half the stuff sold for maple sugar, for at least half the stuff is New Orleans sugar, and sometimes flavored with maple and often not. Recently a Cincinnati chemist analyzed some of the alleged maple sugar sold there, being employed by the Food Commissioner to do so. He reported that thirty-three and one-third per cent of the sugar was maple and the other two-thirds glucose. The profit on such sugar is said to be 200 per cent. Under the Ohio law it is a misdemeanor to sell it as pure maple. A good law would be one making it a misdemeanor to buy it for anything but maple, and to ever tasted real maple sugar ought to know when he tastes it again.

There are adulterations of maple sirup which improve it. Birch sap makes a sugar which an expert can scarcely tell from maple, and hatterant sap is richer and sweeter than maple. The best way to be sure maple sugar is genuine is to buy the granulated or grained sugar and run your own cakes. Sugar in that form cannot be successfully adulterated. Initiated, while sirup for sugar in cakes can.
